

KARATIN LLC | CAPABILITY BRIEFING

STAFFING & SPECIALIZED WORKFORCE SOLUTIONS

Flexible talent for the work ahead — supported by expertise in data security, compliance, responsible AI, and training.

FEDERAL • SLED • COMMERCIAL • PRIME TEAMING

Staffing-first. Expertise-backed.

Karatin helps organizations add the right professionals and strengthen the teams that carry critical work forward.

We support defined staffing requirements, project-based capacity, surge needs, and specialized delivery — directly or alongside prime contractors.

A flexible staffing engagement

A straightforward process tailored to the buyer's requirement and delivery environment.

POSSIBLE ENGAGEMENT FORMATS

Individual specialists

Project-based teams

Surge augmentation

Prime teaming support

Mobilization and candidate timelines depend on role requirements, screening and availability; no fixed turnaround is implied.

Supporting public and private missions

FEDERAL & PRIME CONTRACTORS

Technical staffing, defined work packages and subcontract support for mission requirements.

STATE, LOCAL & EDUCATION

Capacity for modernization, operations, governance, service delivery and workforce training.

COMMERCIAL ORGANIZATIONS

IT teams, business systems, project delivery and targeted specialist augmentation.

Buying path: customer procurement procedures, approved purchase channels or prime-contractor teaming, as applicable.

Data security & compliance expertise

SPECIALIZED TALENT + DEFINED DELIVERABLES

Help teams identify sensitive data, apply controls, prepare evidence and strengthen governance.

- Data discovery, classification and sensitivity labeling
- Data Loss Prevention, retention and records support
- Governance controls, audit evidence and remediation
- Microsoft 365 data protection and collaboration

REPRESENTATIVE SPECIALISTS

Data Security Specialist

Information Protection Analyst

Compliance / Governance Analyst

Microsoft 365 Security Engineer

Records & Retention Specialist

Scope and role qualifications are tailored to customer needs.

Responsible AI adoption & readiness

Good AI adoption starts with secure data, clear ownership and practical guardrails.

01

DATA BEFORE AI

Data Security Posture Management (DSPM) for AI; permission and oversharing reviews.

02

GOVERNANCE & CONTROLS

Acceptable-use guidance, roles, review points, risk escalation and policy guardrails.

03

READINESS & ROLLOUT

Use-case risk review, pilot preparation, user awareness and adoption support.

Specialist roles: AI Governance Advisor • AI Readiness Analyst • Data Security Specialist • Adoption Lead

Training & workforce enablement

Build capability that stays with the customer team.

LEADERS

Risk ownership, program oversight and responsible AI decisions.

ADMINISTRATORS

Configuration, controls, governance operations and knowledge transfer.

END USERS & TEAMS

Practical data handling, safe AI use, workflows and adoption.

Deliverables may include workshops, job aids, playbooks, documentation and guided handoff sessions.

What distinguishes Karatin

Staffing with specialized domain understanding and a practical delivery mindset.

RAPID RISK RESPONSE

Focused support when organizations need additional capacity or specialized attention.

LEARN-IN-THE-FLOW TRAINING

Training and knowledge transfer woven into project and staffing support.

RETENTION-FOCUSED DELIVERY

Emphasis on fit, continuity and dependable follow-through; terms are engagement-specific.

SAFETY BY DESIGN

Security, compliance and responsible-use considerations integrated into delivery.

Led by a senior professional with 25+ years of enterprise IT experience.

KARATIN LLC

Let's build the right team.

Discuss the roles, skills, timeframe and buying path that fit your requirement — including opportunities for specialized support in compliance, responsible AI and training.
